

ID/Access Badge for ATS Facilities

American Traffic Solutions (ATS) is pleased to present you with an entry and identification/access Badge to our Mesa Corporate and/or other ATS facilities which will allow entry to the facility and your work area. It represents the company's trust in you and your empowerment as a responsible employee of ATS to safeguard and protect ATS's assets, proprietary information, and the personal information of our employees, our clients and their customers.

As the holder of this Badge, you are agreeing to accept responsibility for the protection and proper use of this Badge. Proper use includes keeping this card under your own possession for your own use. This Badge will also allow you access to certain areas of the building whereas other areas are restricted access during certain times or particular areas. Because of internal and external security doors we request that you keep your badge on your person while in the facility. This card will also serve as your visual identification as an ATS employee for access to other ATS facilities. Improper use of the card may result in disciplinary action up to and including termination depending on the severity of the circumstance. If your badge is lost please advise your supervisor immediately.

I acknowledge that this badge is property of ATS, and I agree that ATS has the right to terminate my use of this badge at any time. I agree to return my badge to ATS upon request by the Company or upon termination.

We ask that you also make an effort to ensure that people inside the building or trying to access the building have an ATS ID Badge or visitor ID.

I hereby acknowledge receipt of my American Traffic Solutions Badge, and that I will abide by the policies associated with it.
